

CELOX RAPID HEMOSTATIC GAUZE

Tactical Medicine Means Working in Urgent and Possibly Life-threatening Conditions...

Celox™ RAPID bridges the significant capability gap between this urgency and the current standard of treatment for hemorrhage control.

Celox RAPID offers a step change in speed, a breakthrough that expands the utility of hemostatics in Tactical Field Care.

Features:

- Stops severe arterial bleeding with only one minute of compression applied
- Independent in vivo testing showed 100% success in achieving hemostasis & reduced blood loss compared to other treatments
- Compact Z-folded format making it easy to use & carry
- Generates no heat
- Tested in a model of casualty evacuation, achieving 100% successful transport without re-bleeding

Dimensions:

- Packaged: H 5.25 in. x W 4.25 in. x D 0.5 in.
- Gauze: W 3 in. x 5 ft
- Weight: 1.1 oz
