

BATLSKIN VIPER A1 HELMET

REV042820

Ultimate Performance Combat Helmet...

The Batlskin Viper A1 Helmet is the ultimate performance combat helmet built in the ACH shape to exact military specifications. This ballistic helmet exceeds the U.S. Army standards for Fragmentation and Resistance to Penetration and Backface Transient Deformation.

The Batlskin Viper A1 Helmet delivers advanced ballistic (NIJ IIIA) and impact protection while providing even weight distribution for a comfortable fit.

Features:

- Stops NIJ IIIA level threats
- Significantly exceeds 2200 ft/s (670 m/s), 1.1 g (17 gr) FSP
- Exceeds all U.S. Army standards for fragmentation, resistance to penetration and backface transient deformation

Shell Geometry and Construction:

- Low profile design/Designed for comfort
- Offers unsurpassed impact protection and ballistic rated hardware
- Tested for ballistic performance from -40°F to 158°F
- Compatible with NVGs, Chem/Bio Masks and communication devices

Rentention System:

- 4-point attachment system with supportive neck pad
- Easily adjusted for a comfortable fit

Dimensions:

- Weight: 3 lb

Suspension/ Liner System:

- Movable comfort pads provide impact protection
- Lightweight, sweat-wicking material resists moisture buildup
- Provides superior comfort by distributing the helmets weight evenly
- Meets all the chemical-resistant tests required by the U.S. Army
