FOR IMMEDIATE RELEASE

**NORTH AMERICAN RESCUE APPOINTS NEW
DIRECTOR OF PRODUCT MANAGEMENT TERESA DUPUIS**

Greer, SC (December 1, 2008) – North American Rescue, Inc is pleased to announce the appointment of Teresa Dupuis to the critical role of Director of Product Management. Teresa will validate that quality systems are in place and functioning optimally throughout the product pipeline to insure that the ultimate customer’s requirements are met and exceeded. The voice of the customer (both internal and external) will play a key role in the evolution of NAR products and services.

With a Bachelor of Science from Southern Wesleyan University and over 21 years of manufacturing quality experience from Michelin Tire Corporation and BMW Manufacturing, Teresa is thrilled at the opportunity to join the North American Rescue team. It was Teresa’s son’s career in the United States Air Force piloting C-17s that drew her to the ground-breaking and patriotic work performed by NAR.

Teresa has also been an active board member for American Society for Quality and is an ASQ senior member and certified quality auditor (CQA). Most recently Teresa worked as a professional recruiter for a local Greenville firm, Godshall Staffing.

“I take pride in the fact that I have worked for the “best in class” for tires, cars, and staffing,” said Teresa, “and I am now ready for the challenge of being a key player for the future quality growth within North American Rescue.”

North American Rescue, Inc., based in Greer, South Carolina, has enjoyed the honor of serving their country, community, and customers for over a decade. By providing innovative casualty care solutions to first responders, health care professionals, and security forces at home and abroad, NAR is leading the fray to decrease preventable death on the battlefield, whether it be a foreign combat zone or the streets of America.
